# ALARM CABLE LOCK

## MOTORCYCLE AND EQUIPMENT SECURITY

### “ALARM CABLE”

Ideal security for Motorcycles, Bicycles,  
Quad Bikes, Trailers, Boats, Jet Skis  
Ride on Lawn Mowers.

Every year over 5000 motorcycle are stolen in Australia. Some wrecked for spare parts, others such as off road dirt bikes are untraceable. The Alarmed Cable Lock is the ideal combination of Alarm & Cable, for locking up your motorcycle or such. (Ideal in conjunction with our LOK-LOOP or ANKA-LOOP).

- The Alarmed Cable Lock is a 25mm plastic coated cable that is 1500mm long.
- The alarm is bump sensitive and 96db. It is very loud, high pitched in frequency and resets after a period of sounding. The cable can be locked without setting the alarm.
- The Alarm Cable is supplied with three AAA batteries, that can not be removed without unlocking the cable.
